

All of the three files provided will work in OmniTrader and VisualTrader by Nirvana Systems.

Notice: You must have the Pro version of the program to use the OmniScripts provided here.

OmniTrader and VisualTrader should not be running when performing the following.

1. Download and uncompress the file "OmniTrader.zip".
2. Copy the two Indicators (PricePerformanceTriplePlay.txt and VolumePerformanceTriplePlay.txt) to the Nirvana/OT2015/VBA/Indicators or Nirvana/VisualTrader 11.0/VBA/Indicators folders.
3. Copy the Chart Template (Triple Play Indicators.otd) to the Nirvana/OT2015/ChartTemplates folder. If you want to use the Chart Template in VisualTrader then change the file extension to .vtd (Triple Play Indicators.vtd) before transferring it to the Nirvana/VisualTrader 11.0/Chart Templates folder.

Now when OmniTrader or Visual Trader are opened and the Chart Template "Triple Play Indicators" is chosen the appearance should be as shown below:
